PROFESSIONAL SUMMARY

I am a Senior Frontend Engineer with more than eight years of experience developing web applications for businesses and the public sector. I work mainly with Vue 3, Nuxt 3, and TypeScript and also have experience with Angular and SAP integrations. I design frontend architecture, improve performance and accessibility, and support teams through testing, code review, and documented technical decisions.

01 / EXPERIENCE

Senior Frontend Engineer · ithouse.co 01.2024 — Present

I develop public-sector applications, contribute to frontend architecture, and improve engineering practices through testing and code review.

- Designed and developed modular frontends with Vue 3, Nuxt 3, and TypeScript for public-sector applications.
- Introduced Playwright E2E tests and used AI to support code review.
- Improved frontend performance and accessibility and worked with the team on security requirements.
- Selected technologies with the team, documented architecture decisions in ADRs, and mentored other engineers.

Senior Frontend Developer · Team Lead · Cloudflight 03.2019 — 01.2024

Led a five-person frontend team and developed business applications and a company design system.

- Led a five-person frontend team, planned work, estimated tasks, and maintained code quality.
- Designed frontend architecture and developed multi-module applications with Angular, RxJS, and NgRx, integrating them with SAP ERP systems.
- Helped build a company design system with reusable components and Storybook documentation.
- Conducted technical interviews and workshops and supported the onboarding and growth of more than 10 engineers.

Frontend Developer · Atos 01.2018 — 02.2019

Developed web applications for international clients.

- Developed responsive single-page and server-rendered web applications with Vue.js and Nuxt.js, integrated with REST APIs.
- Worked with UX/UI designers and backend engineers in Scrum, implementing designs accurately and meeting WCAG accessibility guidelines.
- Reduced bundle sizes, improved asset loading, and wrote Jest unit tests.

02 / FEATURED PROJECTS

HomeKeeper · Home Management Platform

Comprehensive home-management SaaS platform featuring warranty records, maintenance schedules, utility meter readings, tasks, and household budgeting. Designed and built from the ground up with Nuxt 3, Vue 3, Supabase, and Tailwind CSS.

Founder & Owner | SaaS Platform | Nuxt 3 · Supabase

Zieliński ART · Bespoke Jewelry Studio

Custom portfolio website for a jewelry studio, with original visual design, optimized media, and a focus on fast loading.

Client Project | Portfolio Website | Nuxt 3 · Tailwind CSS

Auto TIP · Automotive Repair Service

Website for an automotive repair shop with more than 30 years of experience. I focused on local SEO, fast loading, and clear presentation of its services.

Client Project | Nuxt 3 · SEO & Performance

LOOP Mobi · Mobile Hair Salon

Responsive website for a mobile hair salon, with clear pricing, a travel-zone calculator, and easy access to contact details.

Client Project | Next.js · Responsive UI

03 / SKILLS

Frontend & Frameworks

Vue 3 | **TypeScript** | **Nuxt 3** | JavaScript (ES6+) | Angular | React | HTML5 / Semantic HTML | CSS3 / Tailwind CSS

Architecture & Performance

SSR / SSG | Frontend architecture | **Design Systems** | **Core Web Vitals** | Architecture Decision Records (ADRs)

State Management & APIs

Pinia | **REST API** | GraphQL | Supabase | RxJS / NgRx | WebSocket

Testing & Tooling

Playwright (E2E) | Vitest / Jest | **Vite** | Storybook | ESLint / Prettier | Git / GitHub Actions | Webpack

Backend & Cloud

Node.js | PHP / Laravel | PostgreSQL / Supabase | Cloudflare (Pages & Workers) | REST Services

Design & Accessibility

Figma | **UX/UI Design** | Design Tokens | WCAG 2.1 AA / Accessibility (A11y)

AI in Software Development

AI-Assisted Development | AI-assisted code review

04 / AI IN SOFTWARE DEVELOPMENT

I use AI to help plan, prototype, write code, and create tests. I review its suggestions and take responsibility for the quality of the result.

✓ Architecture and System Planning | ✓ UI Prototyping and Scaffolding | ✓ Implementation and Refactoring | ✓ AI-Assisted Code Review | ✓ Test Automation | ✓ Performance Optimization

05 / LANGUAGES

Polish — Native

English
Upper-intermediate (B2) · Business and technical communication

06 / EDUCATION

IT Technician — Computer Systems and Networks
Centrum Edukacji w Zabrzu (2002 – 2006)

I consent to the processing of the personal data contained in my application documents for recruitment purposes in accordance with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 (GDPR).
