ABOUT ME

Senior Frontend Engineer with 8+ years of commercial experience. I build scalable web applications for e-commerce and the public sector. I specialize in Vue 3, Nuxt, and TypeScript, with additional commercial experience in React, Next.js, and Angular.

Beyond feature implementation, I contribute to frontend architecture, reusable component libraries, design systems, code quality standards, testing strategies, accessibility (WCAG), performance, and technical decisions. I enjoy working on products from their architectural foundations through implementation and long-term development.

Core stack: Vue 3, Nuxt, TypeScript, React, Pinia, Vitest, Playwright, Storybook, Vite, REST. Open to Senior Frontend Engineer, Senior Frontend Developer, and frontend-focused Software Engineer roles.

01 / EXPERIENCE

Senior Frontend Engineer · ithouse.co

01.2024 — Present

I develop public-sector applications, contribute to frontend architecture, and improve engineering practices through testing and code review.

- Designed and developed modular frontends with Vue 3, Nuxt 3, and TypeScript for public-sector applications, including a Module Federation implementation.
- Rewrote an application from Vue to React using Next.js.
- Introduced Playwright E2E tests and used AI to support code review.
- Refactored legacy modules, improved interfaces in line with WCAG guidelines, and worked with the team on security requirements.
- Worked with business analysis and UX teams on requirements — validating assumptions, evaluating possible solutions, and improving the product.
- Selected technologies with the team, documented architecture decisions in ADRs, and mentored other engineers.

Technologies: `Vue 3` `Nuxt 3` `TypeScript` `React` `Next.js` `Module Federation` `Playwright`
Skills: `Frontend architecture` `Refactoring` `WCAG` `Requirements analysis` `Mentoring`

Senior Frontend Developer · Team Lead · Cloudflight

03.2019 — 01.2024

Led a five-person frontend team and developed business applications and a company design system.

- Led a five-person frontend team, planned work, estimated tasks, and maintained code quality.
- Designed frontend architecture and developed multi-module e-commerce applications with Angular, RxJS, and NgRx, including Spartacus storefronts integrated with SAP Commerce Cloud and SAP ERP systems.
- Helped build a company design system with reusable components and Storybook documentation.
- Conducted technical interviews and workshops and supported the onboarding and growth of more than 10 engineers.

Technologies: `Angular` `RxJS` `NgRx` `Spartacus` `SAP Commerce Cloud` `SAP ERP` `Storybook`
Skills: `Team leadership` `Frontend architecture` `Design systems` `Mentoring`

Frontend Developer · Atos

01.2018 — 02.2019

Developed web applications for international clients.

- Developed responsive single-page and server-rendered web applications with Vue.js and Nuxt.js, integrated with REST APIs.
- Worked with UX/UI designers and backend engineers in Scrum, implementing designs accurately and meeting WCAG accessibility guidelines.
- Reduced bundle sizes, improved asset loading, and wrote Jest unit tests.

Technologies: `Vue.js` `Nuxt.js` `REST API` `Jest`
Skills: `SSR` `WCAG` `Performance optimization` `UX/UI collaboration`

02 / FEATURED PROJECTS

HomeKeeper · Home Management Platform

Home management SaaS I designed and built from scratch, covering warranties, maintenance, utility meters, tasks, and budgeting.

Founder & Owner | SaaS Platform | Nuxt 3 · Supabase

Zieliński ART · Bespoke Jewelry Studio

Custom portfolio website for a jewelry studio, with original visual design, optimized media, and a focus on fast loading.

Client Project | Portfolio | Nuxt 3 · Tailwind

Auto TIP · Automotive Repair Service

Website for an automotive repair shop with more than 30 years of experience. I focused on local SEO, fast loading, and clear presentation of its services.

Client Project | Nuxt 3 · SEO & Performance

LOOP Mobi · Mobile Hair Salon

Responsive website for a mobile hair salon, with clear pricing, a travel-zone calculator, and easy access to contact details.

Client Project | Next.js · Responsive UI

03 / SKILLS

♥ Especially enjoy

Frontend & Frameworks

♥ Vue 3 | ♥ TypeScript | ♥ Nuxt 3 | JavaScript (ES6+) | Angular | React | HTML5 / Semantic HTML | CSS3 / Tailwind CSS

Architecture & Performance

♥ SSR / SSG | Frontend architecture | ♥ Design Systems | ♥ Core Web Vitals | Chrome DevTools | Lighthouse | Architecture Decision Records (ADRs)

State Management & APIs

♥ Pinia | ♥ REST API | GraphQL | Supabase | RxJS / NgRx | WebSocket

Testing & Tooling

♥ Playwright (E2E) | Vitest / Jest | ♥ Vite | Storybook | ESLint / Prettier | Git / GitHub Actions | Jira | Webpack

Backend & Cloud

♥ Node.js | PHP / Laravel | PostgreSQL / Supabase | Cloudflare (Pages & Workers) | REST Services

Design & Accessibility

♥ Figma | ♥ UX/UI Design | Design Tokens | WCAG 2.1 AA / Accessibility (A11y)

AI in Software Development

♥ AI-Assisted Development | AI-assisted code review | Claude Code | Codex

JAMstack & Headless CMS

JAMstack | Strapi | Prismic | Storyblok

04 / AI IN MY WORK

I use AI to help plan, prototype, write code, and create tests. I review its suggestions and take responsibility for the quality of the result.

✓ Architecture and System Planning | ✓ UI Prototyping and Scaffolding | ✓ Implementation and Refactoring | ✓ AI-Assisted Code Review | ✓ Test Automation | ✓ Performance Optimization

05 / LANGUAGES

Polish — Native

English
Upper-intermediate (B2) · Business and technical communication

06 / EDUCATION

IT Technician — Computer Systems and Networks
Centrum Edukacji w Zabrzu (2002 – 2006)

I consent to the processing of the personal data contained in my application documents for recruitment purposes in accordance with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 (GDPR).
